EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering – CGPA: 8.84

Nov 2022 – Present

Alpha Jr. College of Science and Commerce (HSC)

Higher Secondary Certificate – 73.5%

Mumbai

June 2022

Powai English High School (SSC)

Secondary School Certificate – 85.8%

Mumbai

June 2020

TECHNICAL SKILLS

Programming Languages: C++, Python

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, React.js

Databases & Tools: MySQL, MongoDB, Git, GitHub

PROJECTS

WebGuard | Python, Pandas, NumPy, Flask, scikit-learn, MongoDB Atlas

Sep 2025 – Nov 2025

- Built a supervised ML classifier to detect malicious vs. legitimate websites using 30+ security and behavioral features (SSL state, domain age, DNS records, web traffic).
- Engineered a scalable ETL pipeline with MongoDB Atlas, processing and validating 10K+ records for model training and inference.
- Achieved 89% classification accuracy with balanced precision and recall, evaluated using F1-score and confusion matrix.
- Deployed an end-to-end inference system using Flask REST APIs, enabling real-time predictions with <200 ms latency.

CustomerChurnPredictor | Python, scikit-learn, Pandas, NumPy

Jul 2025 – Aug 2025

- Developed a supervised machine learning model to predict customer churn using demographic, usage, and service-related features.
- Performed data cleaning, feature encoding, and normalization on 7,000+ customer records to improve model stability.
- Trained and evaluated Logistic Regression, Random Forest, and Gradient Boosting models, selecting the best-performing classifier.
- Achieved 88% prediction accuracy with evaluation using precision, recall, F1-score, and confusion matrix.

MediAssist | Python, Gradio, Groq, Whisper, LLaMA

Feb 2025 – Apr 2025

- Developed an AI-powered medical assistant supporting text, image, and voice inputs, trained on 1,000+ curated medical samples.
- Integrated LLaMA-based clinical reasoning and Whisper ASR, achieving 90%+ speech-to-text accuracy.
- Deployed inference workloads on Groq cloud, reducing average response latency by 35%.
- Optimized UI responsiveness and backend workflows to support 200+ concurrent users.

CERTIFICATIONS

Oracle Cloud Infrastructure Generative AI Professional

Oracle

Sep 2025

EXTRA-CURRICULAR

- Recognized as Player of the Tournament among 60+ participants in an inter-college cricket championship for scoring 280+ runs and taking 15 wickets.
- Active competitive programmer with peak LeetCode rating of 1423 and Codeforces rating of 924, consistently participating in online contests.
- Ranked in the top 5% in Round 1 of HackVega, a national hackathon with 2,000+ participants, by solving real-world problem statements.
- Advanced to Round 2 of the Adobe India Hackathon, demonstrating innovative problem-solving in a national-level competition.
